

Statement of intent

It is our intention to respect the privacy of children and their parents and carers, while ensuring that they access high quality nursery care and education.

Aim

We aim to ensure that all parents and carers can share their information in the confidence that it will only be used to enhance the welfare of their children.

Methods

To ensure that all those using - and working in - the nursery can do so with confidence, we respect confidentiality in the following ways.

- Parents have ready access to the files and records of their own children but do not have access to information about any other child.
- All records kept (on the computer and on paper) are with regard to the Data Protection Act and Freedom of information Act.
- Staff will not discuss personal information given by parents with other members of staff, except where it affects planning for the Child's needs.
- All electronic devices used are password protected.

Staff induction

- includes an awareness of the importance of confidentiality in the role of the key person.
- Any concerns/evidence relating to a child's personal safety are kept in a secure, confidential file and are shared with as few people as possible on a "need-to know" basis.
- Personal information about children, families and staff is kept securely in a lockable file whilst remaining as accessible as possible.
- Students coming into the nursery, whether working towards a recognised qualification, or on work experience from school/college, are advised of our confidentiality policy and are required to respect it.
- Where an incident occurs involving more than one child, the names of the other children will not be divulged.

All the undertakings above are subject to the paramount commitment of the nursery, which is to the safety and well-being of the child. Please see also our policy on safeguarding children.
